

15<sup>th</sup> Consultation  
European Network of Health Care Chaplaincy  
Belgium, Blankenberge, 15-19 June 2018

CALL FOR PAPERS

*Nurturing Spirituality in Healthcare Chaplaincy*

The theme of the consultation is nurturing spirituality in healthcare chaplaincy. Spirituality relates to the way we experience meaning, purpose and transcendence in our life. Nurturing means that we develop, cultivate and enhance spirituality in healthcare chaplaincy. This is vital for our healthcare chaplaincy.

We invite all members to present a paper to the consultation. The paper is about the consultation theme, see the explanation attached. The aim of the papers is to bridge the gap between theoretical insights and chaplaincy practices. The papers are not purely academic conferences, nor are they personal testimonies, although research and experience may have their place in them. The focus of the papers is what nurtures the spirituality of healthcare chaplains.

These papers will be presented on Sunday June 17<sup>th</sup>. If you are willing to present a paper, please submit a proposal by February 15<sup>th</sup> to Axel Liegeois: [axel.liegeois@kuleuven.be](mailto:axel.liegeois@kuleuven.be).

The proposal is a Word-document that includes your name, the title and a short description of the content of the paper in ten to twenty lines.

The organizers will review the proposals and give an answer about the acceptance of the paper by March 1<sup>st</sup>.
