

# Leadership at the margins: unmasking God's world

**CAPPE/ACPEP  
National Conference**

Winnipeg Manitoba, Feb 15-18, 2006

Welcome letter from the  
President of Manitoba NW Ontario Region  
John Friesen

My Dear fellow Spiritual Care providers:

It has been 10 years since we last welcomed you to Manitoba for our national conference. In 2006 we invite you to come to the centre of Canada to talk about the margins. Our keynotes are veterans of leadership at the margins; Lloyd Axworthy in politics, Rudy Wiebe in prophetic writing and Christine MacMillan in social services. To bring the theme down to where we each work and live, we have over 30 workshops that will inspire, enrich and challenge. But we also know it will take a powerful incentive to stir spiritual care folk from their warm cozy homes to come to Winnipeg in the middle of February. Fortunately we have just such an incentive. The Festival Du Voyageur, the largest Winter Carnival outside of Quebec, will help provide attendees with fun, excitement and something to write home about. So dress warmly and prepare to have fun. Four large and warm tents serve as venues for music and cultural entertainment. Stay indoors or enjoy the fresh Maple syrup on snow, slide down the toboggan runs, explore the snow maze, see the snow sculptures, or ask questions of the Black Smith or North West Company staff running the General Store in Fort Gibraltar. Bring your skates and enjoy many kilometers of groomed skating paths on the Red and Assiniboine rivers. Check out the Forks Market where people have been meeting for 4000 years. There's way too much to do for me to describe. Come and see for yourself how much fun we can have together. We may even get to sing Happy Birthday to Harold King.

Blessings  
Sincerely  
John

### Pre-Conference Seminars Weds. Feb 15th

Note PC-A-1 and PC-A-2 go together and are one workshop offering. Transportation and lunch will be supplied. Registration limited to 30

#### **PC-A-1 Harry Lehotsky: Urban Poverty – What are you afraid of? Morning half day workshop**

Would you continue to lead if it meant that your life was at risk, that your family and every achievement were threatened? Risk is essential to the credibility and creativity of effective community ministry, effective safety initiatives, long term media relations and growth through public and personal controversy. Tour the facilities of New Life Ministries and explore some of their controversial perspectives on community development. This is a half-day workshop in the setting of New Life Ministries in Winnipeg. Participants will enjoy a delicious lunch in the Ellice Café, one of their most recent initiatives.

Harry Lehotsky is founding minister of New Life Ministries. This inner city church has started a renovation company that renovates and sells or manages house, transitional and emergency housing units, a non-profit café and theatre. Their controversial initiatives in safety and community work have garnered international attention.

#### **PC-A-2 Brian Normand: Spirituality coming out of the margins. Afternoon half day workshop**

Participants will take part in a teaching sweat lodge, which may last approx. 2 hours. Led by an elder, participants will be immersed in aboriginal teachings on healing which were at one time forbidden in Canadian society. The sweat lodge is now used as an important part of working with youth at risk, young offenders, and all who desire to learn more about aboriginal healing practices. **NB: Participants should bring loose clothing (men may**

**wear bathing suit/shorts and women -nightgown or long skirt and t-shirt) and should not suffer from medical conditions which prohibit sauna like conditions. There will be a smudging ceremony before entering the sweat lodge.**

#### **PC-B Yoshi Masaki and staff: Sentenced and in Prison: Spiritual Care Challenged at the Margins**

This workshop will be a full-day on-site workshop at the Headingley Correctional Centre and will explore the unique challenge and practice of spiritual care in the prison context. Prisoners are sent to the margin of society – out of sight – and yet they best reflect the true reality of society and spirituality today. Among topics to be explored are shame and guilt, spiritual and cultural diversity, isolation and despair, forgiveness and healing, prophetic role, and spiritual care self-identity. The latter part of the workshop offers a choice of three small group sessions: (a) Aboriginal Spiritual Care, (b) Spiritual Care during and after a riot and (c) Spiritual Care in the sexual offenders' unit. **NOTE: Participation is limited to 15 people. Advanced registration is required at least one week in advance for security reasons. Participants' names and place of employment are required on your registration form if you wish to attend this workshop. Photo ID will be required before entering the correctional facility.**

Yoshi Masaki, Coordinator of Spiritual Care, brings 12 years of experience as a Teaching Supervisor and in Spiritual Care ministry in the prison context. Members of the Spiritual Care Team will assist in this workshop.

#### **PC-C Margaret McCallum: Integrating Spirituality into the Care Continuum**

Spirituality has become a topic of discussion and research across all disciplines in recent years. This full-day workshop will provide an overview of the topic as it relates to health care in the community and in care facilities. Workshop attendees will participate in multidisciplinary discussions of spiritual care and learn principles of spiritual care which can be implemented across the care continuum.

Margaret McCallum currently teaches in the rural program of the Faculty of Medicine, Department of Family Medicine, University of Manitoba and in the Faculty of Theology, University of Winnipeg. She is a Provisional Supervisor (CPE) and a Specialist in both Pastoral Counselling and Pastoral Care.

#### **PC-D Judy Weiser: The Secret Lives of Personal Snapshots and Family Photographs: Using PhotoTherapy Techniques in Spiritual Caregiving and Pastoral Counselling**

Ordinary personal snapshots are 'mirrors with memory', reflecting what and who has mattered most in people's lives -- thus their value lies more in what they are about *emotionally*, than in what is shown on their surface visually. Based on this, PhotoTherapy techniques use personal snapshots, family photos, and pictures taken by others (and the feelings, thoughts, and memories these evoke) as catalysts for therapeutic communication, personal healing, clarifying needs and goals, and finding meaning in one's life. Because photos can serve as powerful bridges into thoughts, be-

liefs, values, and expectations in ways that words alone cannot do, they can be of *particular* benefit in counselling marginalised or disenfranchised people who are usually less comfortable with traditional "talking" therapies. This Workshop will begin with a slide-illustrated presentation and then provide several experiential opportunities\* so that participants can learn for themselves how these techniques can be particularly useful in Spiritual Caregiving, Pastoral Counselling, and related applications. (*Prior experience with cameras or photographic art is not required; open to all interested, regardless of level of training; purpose is for education, not personal therapy work*).

• **IMPORTANT:** Although *not required* for attending, it will be very helpful for you to bring with you copies of 10 to 20 snapshots that have special meaning for you, plus one recent photo to introduce yourself.

Judy Weiser: Founder and Director of the PhotoTherapy Centre in Vancouver, Judy Weiser is a psychologist, art therapist, author, and trainer with over 25 years experience specializing in two areas of counselling: PhotoTherapy Techniques and Counselling marginalized/disenfranchised people who are infected or affected by HIV/AIDS, particularly inner-city street-involved Aboriginal youth and adults. Author of the book, "*PhotoTherapy Techniques: Exploring the Secrets of Personal Snapshots and Family Albums*" and the informational website explaining the field ([www.phototherapy-centre.com](http://www.phototherapy-centre.com)), she has many publications on both topics.

#### **PC-E Hugh Walker : The Enneagram and Spirituality**

This presentation is purposed to ponder the significance of the Nine Faces of The Holy One in our human condition, and to consider ways to participate with The Holy One's Spirit to refigure their disfigurements. Due consideration will be afforded to the importance of re-theologising the wings on each side of a given Enneagram Energy's existential address. Reference to the animal symbolism of each energy, and the contributions of mythology will also constitute a considerable portion of this rendering. This offering is for anyone interested in using this highly profound, penultimate map into our interiors in a more explicitly theological manner in the context of their work with Self and/or others.

Hugh Walker is currently serving as the Manager of Spiritual Care Services for St. Joseph's Care Group in Thunder Bay, Ontario. In addition to his vocation as a Teaching Supervisor of clinical pastoral education within The Canadian Association of Pastoral Practice and Education, he is also a registered clinical member of The American Association For Marriage and Family Therapy. Moreover, the sacred trust in him to carry The Sacred Pipe, and to provide Sweat Lodge leadership in The Plains Sweetgrass Cree healing tradition is especially close to his heart. Finally, he is acutely interested in discovering and perpetuating ways to play host to The Holy One's antics in the ongoing drama of our human affairs.

#### **PC-F Case Vink and Roy Ellis: Provincial Associations and Colleges: A Cross-Country Check-up (No Charge)**

This half-day program (1 to 4pm) will benefit individuals and groups actively investigating, and/or pursuing Provincial associations and or colleges. The program is designed to promote opportunities for information sharing, dialogue and think-tanking in regards to the many challenges involved with the development of

provincial colleges and professional associations. Discussions will provide topical views of the regional, provincial and national issues related to professional association development work. Participants can expect to leave the session with valuable information regarding the processes, legalities, gains and potential losses attached to the College Development Process and hopefully with a sense of excitement and clarity about this crucial area of discussion.

Roy Ellis is a Spiritual Therapist working in a psychiatric facility in Dartmouth, Nova Scotia. Along with his National interest in Professional Associations and Colleges, Roy has worked for four years in Nova Scotia with a team of CAPPE members developing a Professional association to serve the Atlantic Region. Roy enjoys acting, writing and inspiring people.

Case Vink Case is the Chair of the National Professional Practice Commission of CAPPE/ACPEP. He is also the Site Coordinator, Spiritual Care Services at Foothills Medical Centre in Calgary. Case has been very involved with other interested groups exploring a College of chaplains in Alberta

### **Conference Seminars (90 minutes)**

#### **Thursday Feb 16th, Session 1 10:30-12:00**

**1.1 Judy Weiser: Heart, Mind, Spirit, and AIDS: Counselling for the Emotional, Mental, and Spiritual Aspects of Living With HIV/AIDS (Helping Those Affected, as well as Those Infected) ABEFGHIJLNP QRSTUX** Often, the biggest problem for people dealing with HIV (or loving someone who has it), is not its medical/physical aspects, but rather what AIDS means inside their heart, mind, and spirit (and sometimes also culture) -- these things *deeply* affect the quality and direction of the path each person's journey takes while living with the virus in themselves or loved ones. This Presentation, by a psychologist and art therapist with over twenty years' experience specialized in counselling both street-involved and "rez" Aboriginal people living with HIV (and their friends, families, and communities), is NOT for the purpose of learning any basic "AIDS-101" kinds of medical facts. Rather it is a way to learn more about the deeper underlying emotional, mental, and spiritual issues affecting people who are infected or affected with the virus and learn helpful ideas for improving Spiritual Care, Pastoral Counselling, and other kinds of support to those trying to heal, survive, and love in the meantime -- particularly those from marginalized or otherwise-disenfranchised inner-city "street" cultures.

#### **1.2 Ariel Lee: Jewish Spirituality and Healing ABCJM QRTUVX**

What does Jewish spirituality and the Jewish tradition have to offer with respect to healing.? The purpose of this workshop is to answer that question by exploring the relationship of Jewish sacred texts and practices to healing, health, and wellness. Creative, innovative Jewish healing prayers, meditations, rituals and practices will be presented in an interactive manner. For the purposes of this workshop, healing is defined not as curing illness but rather as coming to a place of wholeness and peace. The content of this workshop is relevant to practitioners both within and outside of the Jewish faith as Judaism serves as the foundation of Christianity and Islam.

**Ariel Lee** Ariel has practiced as a registered nurse since 1982 and currently works in the Sharon Home. She also assists Rabbi Neal Rose with his spiritual care activities there. She writes Jewish meditations, prayers, and rituals for healing. He has published two books and over 30 articles and book chapters.

### **1.4 Janet Anderson: Spiritual guidance ... in the workplace? Chaplains can take the leadership** [ABEMN](#) [RSU](#)

As fewer Canadians attend houses of worship on a regular basis, more people are open to receiving the compassionate help from corporate chaplains that one might have expected in the past from a minister. Corporate chaplains are professionals hired by companies to be a listening ear, a quick responder to crises, an arm to lean on through difficult challenges. Can a chaplain impact both the worker and the business at the same time? This calls for leadership with a new vision.

Trained as a nurse, Janet Anderson has been a businesswoman, chaplain and teacher with a concentration on marketplace theology. She is Director of the new Chaplaincy Program within the Master of Arts Christian Studies at ACTS Seminaries, Trinity Western University.

### **1.5 Peter Barnes: Interprofessional Education and Professional Development of Faculty and Students addressing Suffering and Healing** [AC](#) [RSTUVX](#)

This workshop will trace the development of a research proposal to Health Canada and will include the experience of an interprofessional university course entitled "Death Made Visible." There will also be the presentation of an interprofessional web-based education program.

Case Vink is the Chair of the National Professional Practice Commission of CAPPE/ACPEP. He is also the Site Coordinator, Spiritual Care Services at Foothills Medical Centre in Calgary. Case has worked with Bob Cardinal for 10 years in providing care for Aboriginal patients and developing the Aboriginal Cultural Helper Education Program.

### **2.4 Shane Sinclair & Phillip Behman: Leadership at the margins- Providing care as an unregulated health professional.**

The development of colleges associated with the various Health Professions Acts across Canada has received a large amount of energy, discussion and financial commitment by chaplains. This workshop focuses on the viability, limitations and purpose of seeking regulation and the implications for chaplains providing leadership as an unregulated health profession. The workshop

also addresses some of the myths of regulation from a critical analysis of the Health Professions Act (Alberta). The two presenters bring their experience as members of the College Development Committee in Alberta (ARCAPPE).

Rev. Shane Sinclair is the palliative care chaplain at the Foothills Medical Centre in Calgary. He was certified as a specialist in pastoral care (CAPPE) in 2003 and currently serves on the College Development Committee in Alberta

#### **4.3 John Van Dyk: Lectio Divina: Centrality of the Margin** CEN RSU

Lectio divina (sacred reading) is an ancient and traditional method of reading the Bible as one's own story; of discovering that our own story is, indeed, a Bible story. Bible stories can then become a 'homecoming' story rather than an experience of alienation.

John Van Dyk has had the opportunity to work with various cultures in both northern and southern hemisphere countries, cultures defined by geography, race, age and health.
